ALL ABOUT MITSUBISHI LANCER EVOLUTION

Nr. 1 _July 2000

7000, this is the number of visitors myevo.com had since march 2000! We have only one word to explain you our feeling: thank you. Thank you for your ideas, pics, comments and compliments.

We started from a white piece of paper and a lot of interest for essential cars. No ABD, no ASR, no ABS. Why not? We believe in the last remaining iconic cars we can buy. Noisy, with a power to weight ratio under 5 kg, cars who let you feel the road, the speed. Cars who communicate to you. In myevo.com you will find informations about the Mitsubishi Lancer Evo, as one of the few remaining car of this type you can buy. But not only.

myevo.com is an international virtual club and information exchange point. Parts, preparators, races, trackdays, you will find in myevo.com the informations you are looking for.

myevo.com „has been there“. This is our promise. You will find the very best and the most direct experiences here. Remember: myevo.com is you: as a correspondent you can publish your experiences simply sending us your story with some pics via email!

From one idea we became one soul for 7000 visitors . Let this soul live and enjoy your driving character!

Greetings
myevo.com

news

- **Roadster evolution:** Rumours says that it could be possible to see a limited production of a roadster with Lancer Evolution VI mechanics (280 PS, 4WD) in the near future! 0 to 100kmh in under 5 sec. for this futuristic styled roadster are realistic...we keep you informed.
- **Due in Dezember 2000:** the all new **Lancer EVO VII** will continue the legend of the Lancer EVO 1-3 and 4-6. With a new shape and new technics this car will be the shooting star of 2001 rally stages. myevo.com has the very first unofficial pic from our Japanese correspondent Yositaka for you!
- **Lancer Evo VI Tommi Mäkinen V4 (Ralliart limited series):** Ralliart Japan limited series of the evolution (RHD).
- **Impreza 2001:** Subaru will present the all new Impreza in August 2000. Previously due for October 2000 (Birmingham Motor-Show), now it seems they will present the car two month earlier.
- **Ralliart High Performance Catalogue Nr. 5:** the new catalogue is out. Take a look (japanese) at www.ralliart.co.jp.
- myevo.com **trackday:** we are preparing the first trackday for 2000. In switzerland. Accomodations and other infos by request. Inscribe now using our member form with the comment „slalom“. We will sent you the informations.
- **The grüne Hölle:** a Lancer Evolution fighting during 24 h against the world fastest race cars on the world best track: the Nürburgring! www.ralliart.de
- **Monster-sport:** Japanese racing company with a lot of interesting parts for your evo. Exhaust systems, carbon panels, wheels...Very nice homepage with a lot of details and pics. www.monster-sport.com
- **Mine's:** Japanese racing company with Lancer evo and Nissan Skyline parts (ECUs, Turbos, exhausts....). www.mines.com
